Professional Summary

Detail-oriented Data Analyst with 1 year of experience in data analytics, research, and reporting. Proficient in transforming raw data into actionable insights using Excel, Power BI, and SQL, with a strong ability to prepare comprehensive reports and presentations for stakeholders. Excellent communication and coordination skills, eager to contribute strong analytical abilities to drive research plans and support data-driven decision-making.

Work Experience

Data Analyst (Academic & Practical Projects)

DEPI / Benha University / Self-Employed | Benha

2024 to 2026

- Data Cleaning & Integration (DEPI Project): Managed end-to-end data preparation for a comprehensive sales and delivery project. Successfully cleaned, structured, and merged multiple datasets to build a unified database. Performed advanced analytics on customer behavior, sales performance, and delivery logistics to drive data-informed decisions.
- Graduation Project (Data Engineering Role): Spearheaded the data collection phase, established structured data pipelines, and executed thorough data cleaning and transformation processes to ensure high data quality for the project's core models.
- Sales Analytics (Kaggle Portfolio Projects): Analyzed coffee shop sales datasets from Kaggle to identify purchasing trends, peak hours, and product performance, translating raw data into actionable business insights.
- General Skills: Developed and deployed multiple data analysis projects utilizing Python, data manipulation libraries, and visualization tools to solve diverse business problems.

Education

Computer Science (Bachelor's degree)

Benha

2022 to 2026

Certifications and Licenses

Data Analytics - Google Data Analyst Specialist

May 2025 to Present

Earned a professional certificate of completion after completing a rigorous 6-month intensive training program (November to May 2025) sponsored by the Ministry of Communications and Information Technology (MCIT). The program focused on advanced Data Analytics and specialized tracking based on Google's Data Analyst professional curriculum. Acquired comprehensive, hands-on experience in the entire data lifecycle, from data collection and cleaning to advanced analysis, visualization, and business intelligence.
